

(b) *Indications.* The labeling of the product states, under the heading "Indications," one of the following phrases:

(1) "For" (select one of the following: "flushing," "irrigating," "cleansing," "washing," or "bathing") "the eye to remove" (select one or more of the following: "loose foreign material," "air pollutants (smog or pollen)," or "chlorinated water").

(2) "For" (select one of the following: "flushing," "irrigating," "cleansing," "washing," or "bathing") "the eye to help relieve" (select one or more of the following: "irritation," "discomfort," "burning," "stinging," "smarting," or "itching") "by removing" (select one or more of the following: "loose foreign material," "air pollutants (smog or pollen)," or "chlorinated water").

(c) *Warnings.* In addition to the warnings in § 349.50, the labeling of the product contains the following warnings under the heading "Warnings" for all eyewash products:

(1) "If you experience eye pain, changes in vision, continued redness or irritation of the eye, or if the condition worsens or persists, consult a doctor."

(2) "Obtain immediate medical treatment for all open wounds in or near the eyes."

(3) "If solution changes color or becomes cloudy, do not use."

(d) *Directions.* The labeling of the product contains the following information under the heading "Directions":

(1) *For eyewash products intended for use with an eyecup.* Rinse cup with clean water immediately before each use. Avoid contamination of rim and inside surfaces of cup. Fill cup half full and apply the cup to the affected eye, pressing tightly to prevent the escape of the liquid, and tilt the head backward. Open eyelids wide and rotate eyeball to ensure thorough bathing with the wash or lotion. Rinse cup with clean water after each use.

(2) *For eyewash products intended for use with a nozzle applicator.* Flush the affected eye as needed, controlling the rate of flow of solution by pressure on the bottle.

[53 FR 7090, Mar. 4, 1988, as amended at 68 FR 7921, Feb. 19, 2003]

§ 349.79 Labeling of permitted combinations of active ingredients.

Statements of identity, indications, warnings, and directions for use, respectively, applicable to each ingredient in the product may be combined to eliminate duplicative words or phrases so that the resulting information is clear and understandable.

(a) *Statement of identity.* For a combination drug product that has an established name, the labeling of the product states the established name of the combination drug product, followed by the statement of identity for each ingredient in the combination, as established in the statement of identity sections of this part. For a combination drug product that does not have an established name, the labeling of the product states the statement of identity for each ingredient in the combination, as established in the statement of identity sections of this part.

(b) *Indications.* The labeling of the product states, under the heading "Indications," the indication(s) for each ingredient in the combination, as established in the indications sections of this part.

(c) *Warnings.* The labeling of the product states, under the heading "Warnings," the warning(s) for each ingredient in the combination, as established in the warnings sections of this part.

(d) *Directions.* The labeling of the product states, under the heading "Directions," directions that conform to the directions established for each ingredient in the directions sections of this part. When the time intervals or age limitations for administration of the individual ingredients differ, the directions for the combination product may not exceed any maximum dosage limits established for the individual ingredients in the applicable OTC drug monograph.

§ 349.80 Professional labeling.

The labeling of any OTC ophthalmic demulcent drug product provided to health professionals (but not to the general public) may contain instructions for the use of these products in professional eye examinations (*i.e.*, gonioscopy, electroretinography).
